Thank you for choosing AORUS X5!

AORUS X5 is the first gaming notebook equipped with hardware video compression card in the world. You can embrace the game recording convenience and game streaming fun without performance loss through X5. Please read following instruction about how to use bundled XSplit Gamecaster along with video compression card to release the true gaming power of X5

1

- Run the XSplit Gamecaster in the desktop. If it hasn't been installed in your system, please head for the official website of XSplit for downloading: <https://www.xsplit.com/>

2

- Key-in your account and password on XSplit. If you don't have XSplit account, please register one through the link below.

3

- Enter the main page of Xsplit Gamecaster, then enter "Setting".

4

- For the best game recording and streaming quality, please set the setting to 1080p full HD.

5

- Click advanced setting.

6

- Change the codec method to **AverMedia H.264 Encoder**.

7

- Setting finished.

感謝您選購AORUS X5!

AORUS X5是全世界第一台搭載影像壓縮卡的電競筆電，讓您在玩遊戲時盡享側錄遊戲的便利以及即時串流遊戲畫面的樂趣，而不需擔心效能因此折扣。以下將逐一說明如何搭配隨機附贈的XSplit Gamecaster以及硬體壓縮卡使用，以發揮AORUS X5真正的遊戲實力。

1

- 點擊執行桌面上的 XSplit Gamecaster。若您的電腦尚未安裝 XSplit Gamecaster，請至 XSplit 官方網站下載：

<https://www.xsplit.com/>

2

- 輸入您的帳號（電子郵件）以及密碼，然後登入（若是沒有 XSplit 帳戶，請利用下方的連結註冊）。

3

- 進入 XSplit Gamecaster 主畫面，然後選擇”設置”

4

- 為了取得最好的遊戲錄影以及串流品質，請將串流以及遊戲錄影品質改為 1080p full HD。

5

- 點選進階設置。

6

- 將編碼方式改AverMedia H.264 Encoder。

7

- 設定完成。
